My Dad loves this game.. This reminds me of the good old days. Now I am reminded of how old I am. It is worth a play.. Warning, this review is not without nostalgic bias.

This game is one of my old favourites, though it's not very pretty or smart all the time. It still holds a very special place in my heart.

Though you have set goals every mission the way you complete your task is very often up to you. Going in guns blazing before your enemies can propely react or picking a silenced sniper rifle and eliminating your enemies one by one unnoticed.

Your allies usually just run on their set path without any thought of their own safety, and your enemies are quite often very slow to react when you rush them. Also they shoot like drunken blind monkeys.

No matter how you look at it, the weapons are far from balanced, some weapons are just simply so good that it's not even remotely challenging. A good example being the PSG sniper rifle, and when playing as the sniper character, Longbow is even more OP.

But no matter the flaws of this game i can't do anything else then recommend it due to all the fun times this game has given me.. This game is AWESOME!. Childhood nostalgia

still good game,be better if could get online,if theres a way to fix that problem please let me know. Best Delta Force tbh.. Game's great. (It's old and a bit ♥♥♥♥♥♥ but I love it) THE THING THAT PISSES ME IS THE RESOLUTION GODDAMNIT!!!! WHY IS IT LIMITED TO THIS TINY SH***Y SQUARE!!!! VIDEOS OF THE GAME ON YOUTUBE ARE IN 16:9!!!!. Bizarre shift for the series. Realistic feeling missions were replaced by one-man army killathons. The stoic spec ops soldiers you played as previously were replaced by action hero characters with cliché personalities and cheesy dialogue. Realistic weapons were cluttered with many oddball designs that just look cool, with the titular Land Warrior concept billed as the obvious weapon of the future (it wasn't.) Combat was tweaked to be more like an action game than a tactical shooter. The new engine was supposed to be a giant leap forward in 3D gaming, but didn't run properly on most computers, and the game is still super buggy.. Delta Force Land Warrior is a fun tactical first-person shooter that despite some small issues remains as a good game that is worth your time .
Final Score : 7/10 (Good)
